

SOLO Formwork Ltd – HSQE Statement

Health and Safety

SOLO Formwork has a rigorously enforced policy of safe working throughout the organization.

Our comprehensive health and safety policy and procedures are communicated to staff and anyone involved in our construction activities through induction training, memos, communiqués and regular toolbox talks. The policy is reviewed on a regular basis to ensure that we meet all legislative standards and are following best industry safety practices.

All our staff are CSCS certified, undertake training as and when required and all direct employed are trained in first aid.

Environment & Sustainability

We acknowledge that our activities have an impact on the Environment and are committed to minimize that impact by promoting the following objectives:

- We strive to meet all relevant legislation, regulations, government guidance and the industry code of practice on Environmental policies
- We make efficient use of natural resources by minimizing waste, conserving energy and water and seeking to re-cycle reuse material where possible
- We use and maintain modern and effective equipment and transport which have a reduced impact on the environment
- We ensure our staff and suppliers are aware of this policy and encourage them to apply similar environmental standards to their own work
- We use timber from sustainable sources
- We conduct our operations and activities on site such to ensure waste on site is minimized.
- We shall work very closely with our clientele in promoting the segregation of different types of waste that arise from all works and re-cycle material where practicable.

Quality of Workmanship

Quality is driven throughout Solo Formwork from the board level downwards.

We do not hold Quality Assurance Standard ISO 9001:2008 yet, but in practice quality for Solo Formwork means:

- Zero defects
- Do it **Right** first time
- Delivery on time and to budgets
- Innovating for the benefit of our clients
- Exceeding clients expectations
- A pro-active service

Day-to-day quality control is maintained by our experienced site team. We monitor our performance throughout the project with regular quality reviews by our management to ensure the works are carried out in accordance with the specification and standards agreed.
